

# Des Moines Metro Area Stormwater BMP Cost-Share Program

Did you know that your community may have a cost-share program that funds practices you can use in your lawn to make it soak up stormwater, which helps improve overall water quality?

Your community, along with the Iowa Storm Water Education Partnership (ISWEP), encourages you to install these best management practices (BMPs) on your property to help improve the water quality in your neighborhood stream, pond, or lake.

Contact your local stormwater department or visit their website to learn more about stormwater BMP projects and your community's cost-share funding options!
